

## TEACHERS ON THE ESTUARY (TOTE)

The Mission-Aransas NERR is hosting a TOTE workshop for middle and high school teachers. This year the workshop will look at estuarine ecology focusing on food-web dynamics, and estuarine resiliency. Food webs are a complex system dependent on the health of the environment and diversity of the community it supports. Teachers will engage in hands-on learning with NERR educators using real-world scientific data. This workshop is limited to 15 teachers.

Explore marine science while learning about the estuarine ecosystem on the Mission-Aransas Estuarine Research Reserve.

**JULY 5-7, 2023**  
**PORT ARANSAS, TX**

**\$100 STIPEND**
